

The Value of Arizona Adult Education

Arizona Adult Education provides comprehensive literacy services to adults to improve their standard of living and expand their contributions to the community and the state

What is Adult Education?

Adult Education is authorized under Title II of the Workforce Investment Act of 1998, also known as the Adult and Family Literacy Act, and Arizona Revised Statute 15-234.

Arizona Adult Education provides comprehensive literacy services to learners 16 years of age and older, not enrolled in a K – 12 school. Instruction can include:

- Adult Basic Education - reading, writing and math through the 8th grade level
- Adult Secondary Education and GED Test Preparation
- English for Speakers of Other Languages (ESOL)
- Citizenship Test Preparation
- Workplace literacy classes that are customized to meet the specific needs of a business or industry
- Instruction delivered in the context of parenting, civics, the workforce, finances, and health

Adult Education providers are funded by the Arizona Department of Education through a competitive, rigorous process. Eligible providers include local education agencies, community colleges, and community-based organizations. Funding is based upon the provider's ability to deliver extraordinary educational services and a demonstrated record of producing learners who meet their academic and employment goals. Providers designated to receive funding must:

- Deliver instruction based upon Arizona's Adult Education Standards, among the most rigorous in the nation
- Report learner outcomes through Arizona's unsurpassed web-based software system
- Provide instruction that demonstrates research-based best practices
- Participate in continual program improvement processes and ongoing professional development

The Need For Adult Education in Arizona

In Arizona 768,619 adults (22%) **do not have a high school diploma or GED**. Four percent, **or 139,749 adults, cannot communicate effectively in the English language**.

There is a **direct relationship between low literacy levels and unemployment and poverty**. Over **80% of adults enrolled in Arizona Adult Education read below the 9th grade level**.

Many parents lack the skills necessary to help their children succeed in school. **The greatest predictor of a child's success in school is the education level of the parent.**

Outcomes of Adult Education for Program Year 2001 - 2002

- Only thirty-six programs statewide met the rigorous requirements to receive funding. They provided over 900 classes in locations across Arizona.
